MY PROJECTS

- **SHOPPER [View](#)** "SHOPPER is an e-commerce site for selling clothes, built with HTML, CSS, JavaScript, and React.js. My first React project, utilizing components, state management, and JSX."
- **AmazonClone [View](#)** "Built an AmazonClone using HTML, CSS, and JavaScript. A hands-on project to enhance my front-end skills, focusing on responsive design and dynamic features."
- **HangManGame [View](#)** "Created a Hangman game using JavaScript for functionality and HTML/CSS for the design. A fun project to enhance my skills in JS!"
- **Piano [View](#)** "Created an interactive piano using HTML, CSS, and JavaScript. Press the keys to play real piano sounds!"
- **TODOLIST [View](#)** "Built a ToDo List app using HTML, CSS, and JavaScript. Manage your tasks efficiently with this interactive app!"
